AATHISOFT TECHNOLOGIES

COMPANY PROFILE · 2026

AATHISOFT TECHNOLOGIES

Software that runs real businesses.

We build Exonita, the cloud platform Indian shops, restaurants and service businesses use to bill, manage stock and run their teams. We also design websites, web apps and mobile apps, and stay with every customer after go-live.

ABOUT AATHISOFT

Built in Tamil Nadu, for Indian businesses

Aathisoft Technologies was founded in 2020 in Pudukkottai, Tamil Nadu. Today we work from two offices, in Alangudi (Pudukkottai) and Whitefield (Bangalore), building practical software for businesses that run real counters, kitchens, service desks and teams.

Our main product is **Exonita**, a cloud business platform with an app for each industry. Alongside it, we build custom software, websites and mobile apps, and we set up, train and support every customer ourselves.

2020
founded in Pudukkottai, Tamil Nadu

2
offices: Tamil Nadu and Bangalore

6
industry apps on the Exonita platform

1
team from design to support, with no hand-offs

OUR MISSION

Give every Indian business, from a single counter to many branches, software that is simple to use, honest in what it promises and backed by people they can call.

OUR VISION

Run every branch, counter and workflow from one secure workspace.

HOW WE BUILD

Practical over impressive
We measure success by whether a team actually uses the software every day, not by a longer feature list.

One team, full lifecycle
The people who design a product stay reachable through setup, training and support.

Data you can trust
Billing, stock, customers and staff share one system, so reports agree without manual clean-up.

OUR JOURNEY

2020
Aathisoft founded in Pudukkottai, Tamil Nadu

2021–23
Billing, inventory and CRM products shipped to first customers

2024–25
HR, procurement and industry-specific products added

2026
Exonita platform live, with restaurant, retail and service apps

02

THREE WAYS WE HELP

Products, projects and people who stay

Most customers start with an Exonita app. Some need a website, an online store or a custom application as well. Either way, the same team sets it up and supports it.

01

Exonita business apps

Cloud billing, stock, customers, staff and reports, with a ready app for each industry.

- Restaurant, retail, supermarket, hardware
- Service center and salon & spa
- Monthly or yearly plans
- Updates included

02

Custom software & web

Websites, online stores, web applications and mobile apps built for your workflow.

- Business websites & e-commerce
- Web applications & portals
- Android and iOS apps
- Chatbots and AI automation

03

Setup, hardware & support

We get you live and stay with you after go-live.

- Item and data import
- Printers, scanners and counter PCs supplied
- On-site or video-call training
- Phone and WhatsApp support

HOW WE WORK

1

Understand

We visit or call, see how your counter and team work today, and agree on what to solve.

2

Configure or build

We set up the right Exonita app, or design and build what you need.

3

Train & go live

Your data is loaded, your staff are trained and the first bill or launch happens with us beside you.

4

Support & improve

Regular updates, support on phone and WhatsApp, and changes as your business grows.

Local team you can meet

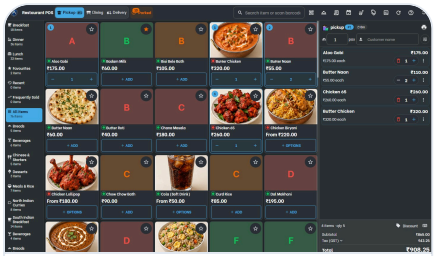

Our team is based in Tamil Nadu and Bangalore. We visit customers, train staff in person and answer the phone ourselves.

03

EXONITA BY AATHISOFT

One platform, every counter

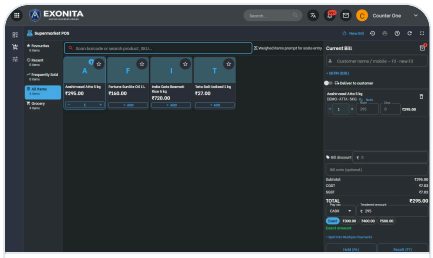

Each industry gets its own billing screen and dashboard, while stock, customers, staff and reports stay in one place for the owner.

Restaurant POS

Dine-in, pickup and delivery, captain app, KOT, kitchen stock and catering.

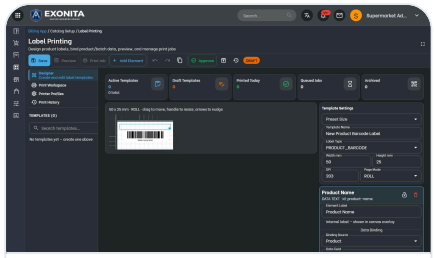

RESTAURANTS · CAFÉS · BAKERIES

Supermarket POS

Barcode-first checkout, quick billing, loose items, batch and expiry.

SUPERMARKETS · GROCERY

Retail POS

Fast GST billing, barcode and shelf labels, customer credit and stock.

GARMENTS · FOOTWEAR · GIFTS

Hardware POS

Multiple units, trade price levels, quotations and delivery challans.

HARDWARE · PAINT · ELECTRICAL

Service Center

Job cards, estimates on WhatsApp, technicians, AMC and warranty tracking.

MOBILE · ELECTRONICS · APPLIANCES

Salon & Spa

Appointments, stylists, service menu and packages with session tracking.

SALONS · SPAS · BEAUTICIANS

Every Exonita app includes

GST-ready billing
Regular, composition and unregistered

Works on any device
Browser on PC, laptop, tablet or phone

Thermal & A4 printing
Your logo on every bill

Owner control
Staff roles, till close, two-step sign-in

Customer messages
WhatsApp messages and email receipts

Grows with you
Add counters, users and branches later

WHO WE WORK WITH

Made for the way India does business

Restaurants and retail shops in Tamil Nadu and Karnataka run their day on Exonita. Each app is shaped by what we see at real counters, from rush-hour billing to the day-end cash count.

Restaurants & food
Restaurants, cafés, bakeries, cloud kitchens, hotels, messes and caterers

Supermarkets & grocery
Departmental stores and grocery shops with fast barcode checkout

Retail shops
Garments, footwear, gifts, stationery and general stores

Hardware & building
Hardware, paint, electrical, plumbing and building materials

Electronics & mobiles
Sell at the counter and track repairs with job cards in one system

Salons & spas
Appointments, stylists, packages and home-service bookings

Same platform, the right screen for each trade

- **Industry dashboards** for restaurant, supermarket and retail
- **Shared back office**: items, stock, customers, staff and GST
- **One login** across branches and apps
- **Sales & service shops** run both apps together

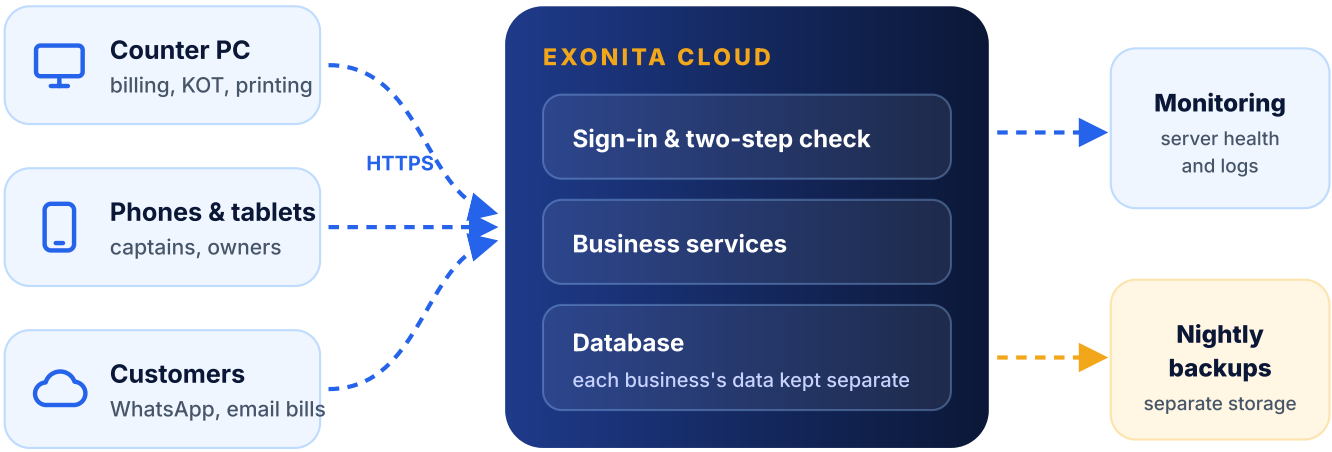

Screens shown are from our demo businesses.

05

CLOUD, SECURE, ALWAYS UP TO DATE

Your data, safe and available everywhere

Exonita runs in the cloud. There is nothing to install on the counter PC, every update reaches you automatically, and your data is backed up every night.

Two-step sign-in
Codes from an authenticator app, backup codes and trusted devices.

Roles & permissions
Each staff member sees only the screens and actions their role allows.

Confirm sensitive actions
Choose which transactions ask staff to confirm with a code.

Session control
See signed-in sessions and sign out other devices at any time.

Nothing to install
Runs in the browser; updates arrive automatically for everyone.

Nightly backups
A copy of the data is saved every night to separate storage.

Help when you need it
Step-by-step user manuals for each role at docs.exonita.com, guided tours inside the app, and our support team on phone and WhatsApp.

06

BEYOND OUR PRODUCTS

Custom software, websites and apps

Websites & online stores

Fast, mobile-friendly business websites and e-commerce stores, built to be found on Google.

Business sites · E-commerce · SEO

Web applications

Portals, booking systems and internal tools built around how your team works.

Customer portals · Booking · Integrations

Mobile apps

Android and iOS apps for your customers, field staff or delivery team.

Android · iOS

AI & automation

Chatbots and automation that answer common questions and take repetitive work off your team.

Chatbots · Workflow automation

Digital marketing

Search, social media and WhatsApp campaigns that bring customers to your shop or site.

Social media · Google · WhatsApp

EXONITA PLANS

Retail, Supermarket, Hardware, Salon & Spa and Service Center apps start from

₹299 /month

+ 18% GST · Starter plan

- **14-day free trial** on every app
- **Pay yearly**: 12 months for the price of 10
- **Starter, Growth and Business** plans as you grow
- **Restaurant POS**: written quotation for your counters and branches

Need something bigger?

More than 10 outlets, or your own server? Ask us about Enterprise.

WHY AATHISOFT

A software partner you can call

Our own product
We build and run Exonita ourselves, so fixes and improvements come straight from the team that wrote it.

Local and reachable
Offices in Tamil Nadu and Bangalore; we visit, train and support in person.

Honest promises
We quote only what the software does today and tell you plainly if something is not a fit.

Live in days
Data import, setup, hardware and training handled by one team.

Secure by default
Two-step sign-in, staff roles and nightly backups as standard.

Grows with you
Start with one counter; add counters, branches and apps when you are ready.

Book a free demo

Tell us about your business. We will show you the right app, or tell you honestly if it isn't a fit.
